

Study Medication Satisfaction Questionnaire (change): (SMSQc)

For the past few weeks/months you have been taking part in a medication study. Today we would like to know how your current experience of study medication has changed from your earlier experience of study medication used during the first few weeks of the study. Please answer each question by circling a number on each of the scales to indicate the extent to which you have experienced changes. If you have experienced no change, please circle '0'

1. How satisfied are you with your current study medication?
much more satisfied now 3 2 1 0 -1 -2 -3 much less satisfied now

2. How satisfied are you with any side effects of your present study medication?
much more satisfied now 3 2 1 0 -1 -2 -3 much less satisfied now

3. How satisfied are you with your understanding of your current study medication?
much more satisfied now 3 2 1 0 -1 -2 -3 much less satisfied now

4. How satisfied are you with the extent to which the study medication fits in with your lifestyle?
much more satisfied now 3 2 1 0 -1 -2 -3 much less satisfied now
